

## MSHS Revised Benefit Package

Sl. No.	Package Code	Procedure Name	Package Amount	Description of the wounds with Procedures	Investigations	Document to be uploaded for claims
1	1	SIMPLE INJURY-I	Rs.1000/-	Treating simple wound + Injection Tetvac + Analgesic + Antibiotics ,General conditions(like BP, Pulse etc),Cleaning, suturing and Dressing of the wounds	Blood -Hb% +	1.Scanned copy of MLC Register showing the details of injury or Police intimation copy. (seal and sign of police station) (2) Photos showing the wound before and after treatment with showing the pt face clearly (3)OP Record/case sheet details showing the treatment given (including OT notes if any), with investigation done report. (4) Hospital Bill with seal and sign (5) At least one identity proof Of the patient to be uploaded during submission of claims
2	2	SIMPLE INJURY-II	Rs.2500/-	Treating simple wound + Injection Tetvac + Analgesic + Antibiotics ,General conditions(like BP, Pulse etc),Cleaning, suturing and Dressing of the wounds +Change of soiled cloth with a disposable dress + starting the I V line + multiple deep lacerated wounds suturing ( Admission/Day Care).	Blood -Hb% +	1.Scanned copy of MLC Register showing the details of injury and Police intimation copy. (seal and sign of police station) (2) Photos showing the wound before and after treatment with showing the pt face clearly (3)OP Record/case sheet details showing the treatment given (including OT notes if any), with investigation done report. (4) Hospital Bill with seal and sign (5) At least one identity proof Of the patient to be uploaded during submission of claims
3	4	DEGLOVE INJURY OF EXTREMITIES	Rs.12000/-	Wound debridement of deglove injury in operation theatre under anesthesia + starting the IV line + IV antibiotics + remaining wounds suturing and Treated as In Patient.	Blood -Hb%+ X-ray of affected part	1.Scanned copy of MLC Register showing the details of injury and Police intimation copy. (seal and sign of police station) (2) Photos showing the wound before and after treatment with showing the pt face clearly (3)OP Record/case sheet details showing the treatment given including OT notes with investigation done report. (4) Hospital Bill with seal and sign (5) At least one identity proof Of the patient to be uploaded during submission of claims (6) X-Rays to rule out fracture (7) Blood reports

4	5	SIMPLE FRACTURE SPLINTAGE ONLY	Rs.1500/ per fracture	Cleaning, suturing and Dressing of the wounds + fracture stabilization with splint .	X-Rays of the limb	<p>1.Scanned copy of MLC Register showing the details of injury and Police intimation copy. (seal and sign of police station)</p> <p>(2) Photos showing the wound before and after treatment with showing the pt face clearly</p> <p>(3)OP Record/case sheet details showing the treatment given (including OT notes if any), with investigation done report.</p> <p>(4) Hospital Bill with seal and sign</p> <p>(5) At least one identity proof Of the patient to be uploaded during submission of claims</p> <p>(6) X-Ray of limb showing fracture</p>
5	6	CLOSED FRACTURE REDUCTION UNDER ANAESTHESIA FOR FIRST FRACTURE	4000/-	Cleaning, suturing and Dressing of the wounds +Change of soiled cloth with a disposable dress +Closed fracture reduction under short GA with plastering and treated as Inpatient.	Blood -Hb% + X-Rays of the part	<p>1.Scanned copy of MLC Register showing the details of injury and Police intimation copy. (seal and sign of police station)</p> <p>(2)OP Record/case sheet details showing the treatment given (including OT notes if any), with investigation done report.</p> <p>(3) Hospital Bill with seal and sign</p> <p>(4) At least one identity proof Of the patient to be uploaded during submission of claims</p> <p>(5) Two photos showing the LIMB before and after FRACTURE REDUCTION (showing the pt face includes pt photo for identity)</p> <p>(6)X-Ray showing the fracture before and after stabilization</p> <p>(7)Blood Investigation - Hb%</p>
6	7	CLOSED FRACTURE REDUCTION UNDER ANAESTHESIA FOR FIRST and ADDITIONAL FRACTURE	5500/	Cleaning, suturing and Dressing of the wounds +Change of soiled cloth with a disposable dress + Closed fracture reduction under short GA with plastering and treated as Inpatient.	Blood -Routine -Hb%+ X-Rays of the part	<p>1.Scanned copy of MLC Register showing the details of injury and Police intimation copy. (seal and sign of police station)</p> <p>(2) Photos showing the wound before and after treatment with showing the pt face clearly</p> <p>(3)OP Record/case sheet details showing the treatment given (including OT notes if any), with investigation done report.</p> <p>(4) Hospital Bill with seal and sign</p> <p>(5) At least one identity proof Of the patient to be uploaded during submission of claims</p> <p>(6) Two photos showing the LIMB before and after FRACTURE REDUCTION (showing the pt face includes pt photo for identity)</p> <p>(7)X-Ray showing the fracture before and after stabilization</p> <p>(8)Blood Investigation Hb%</p>

7	8	DISLOCATION REDUCTION UNDER ANAESTHESIA	Rs.8000/-	.Wound Management + Includes joint dislocation reduction under General Anesthesia and Treated as In Patient.	Blood -Hb% + X-Rays of the part	<ol style="list-style-type: none"> <li>1.Scanned copy of MLC Register showing the details of injury and Police intimation copy. (seal and sign of police station)</li> <li>(2) At least one identity proof of the patient to be uploaded during submission of claims</li> <li>(3) Hospital Bill with seal and sign</li> <li>(4)OP Record/case sheet details showing the treatment given (including OT notes if any), with investigation done report.</li> <li>(5) Photos showing the wound before and after treatment with showing the pt face clearly</li> <li>(6) X-Ray showing dislocation of joints before and after reduction</li> <li>(7) If laceration is present in the same area, only one code would be approved</li> </ol>
8	9	SIMPLE/COMPOUND FRACTURE WITH INTERNAL/EXTERNAL FIXATION ALONG WITH IMPLANTS	Rs.21000/	Cleaning, suturing and Dressing of the wounds +Change of soiled cloth with a disposable dress + starting the IV line + IV antibiotics + internal/external fixation of the fracture (in compound fractures)/Flap Cover and Treated as In Patient.	Blood -CBC + X-Rays of the part	<ol style="list-style-type: none"> <li>1.Scanned copy of MLC Register showing the details of injury and Police intimation copy. (seal and sign of police station)</li> <li>(2) Hospital Bill with seal and sign</li> <li>(3)OP Record/case sheet details showing the treatment given (including OT notes if any), with investigation done report.</li> <li>(4) Photos showing the wound before and after treatment with showing the pt face clearly</li> <li>(5) At least one identity proof of the patient to be uploaded during submission of claims</li> <li>(6)X-Ray showing fracture before and after applying internal/external fixators</li> <li>(7) Blood inv reports</li> </ol>
9	10	INTER COSTAL DRAINAGE (ICD) ONE SIDE	Rs.8000/	Cleaning, suturing and Dressing of the wounds +Change of soiled cloth with a disposable dress + starting the IV line + IV antibiotics + inter costal drainage and Treated as In Patient.	Blood -CBC + Urine - Routine + X-Rays of the Chest before and after ICD	<ol style="list-style-type: none"> <li>1.Scanned copy of MLC Register showing the details of injury and Police intimation copy. (seal and sign of police station)</li> <li>(2) Photos showing the wound before and after treatment with showing the pt face clearly</li> <li>(3)OP Record/case sheet details showing the treatment given (including OT notes if any), with investigation done report.</li> <li>(4) Hospital Bill with seal and sign</li> <li>(5) At least one identity proof of the patient to be uploaded during submission of claims</li> <li>(6)Chest X-Ray before and after ICD,</li> <li>(7)Any other special investigation like ECG etc.,</li> <li>(8) Blood inv reports -CBC</li> </ol>

10	11	INTER COSTAL DRAINAGE (ICD)BILATERAL (FLAIL CHEST)	Rs.11000/-	Cleaning, suturing and Dressing of the wounds +Change of soiled cloth with a disposable dress + starting the IV line + IV antibiotics + Inserting Bilateral intercostals Drainage set and treated as Inpatient	Blood -CC, Urine - Routine + X-Rays of the Chest before and after ICD insertion	<p>1.Scanned copy of MLC Register showing the details of injury and Police intimation copy. (seal and sign of police station)</p> <p>(2) Photos showing the wound before and after treatment with showing the pt face clearly</p> <p>(3)OP Record/case sheet details showing the treatment given (including OT notes if any), with investigation done report.</p> <p>(4) Hospital Bill with seal and sign</p> <p>(5) At least one identity proof Of the patient to be uploaded during submission of claims</p> <p>(6) X-Rays of chest before and after ICD insertion</p> <p>(7) Blood inv reports – CBC</p>
11	12	INTER COSTAL DRAINAGE (ICD)BILATERAL (FLAIL CHEST) WITH ICU STAY	Rs.12000/	Cleaning, suturing and Dressing of the wounds +Change of soiled cloth with a disposable dress + starting the IV line + IV antibiotics + Inserting Bilateral intercostals Drainage set and treated as Inpatient	CBC- + Urine - Routine + X-Rays of the Chest before and after ICD insertion	<p>1.Scanned copy of MLC Register showing the details of injury and Police intimation copy. (seal and sign of police station)</p> <p>(2) Photos showing the wound before and after treatment with showing the pt face clearly</p> <p>(3)OP Record/case sheet details showing the treatment given (including OT notes if any), with investigation done report.</p> <p>(4) Hospital Bill with seal and sign</p> <p>(5) At least one identity proof Of the patient to be uploaded during submission of claims</p> <p>(6) X-Rays of chest before and after ICD,</p> <p>(7)Special investigation like CT, erect abdomen x-ray etc. (optional)</p> <p>(8) Blood inv reports</p>
12	13	INTER COSTAL DRAINAGE (ICD)BILATERAL (FLAIL CHEST) WITH ICU STAY WITH VENTILATOR	Rs.14000/-	Cleaning, suturing and Dressing of the wounds +Change of soiled cloth with a disposable dress + starting the IV line + IV antibiotics + Inserting Bilateral intercostals Drainage set and treated as Inpatient + Ventilator support	Blood -CBC + ABG, Urine - Routine + X-Rays of the Chest before and after ICD insertion	<p>1.Scanned copy of MLC Register showing the details of injury and Police intimation copy. (seal and sign of police station)</p> <p>(2) Photos photo showing the pt face clearly and on ventilator</p> <p>(3)OP Record/case sheet details showing the treatment given (including OT notes if any), with investigation done report.</p> <p>(4) Hospital Bill with seal and sign</p> <p>(5) At least one identity proof Of the patient to be uploaded during submission of claims</p> <p>(6) X-Rays of chest before and after ICD insertion</p> <p>(7) Photo of pt with ventilator</p> <p>(8) ABG reports</p> <p>(9) Blood inv reports –CBC</p>

13	14	BLUNT INJURY ABDOMEN	Rs.10000/-	Cleaning, suturing (if required) and Dressing of the wounds +Change of soiled cloth with a disposable dress + starting the IV line + IV antibiotics + Suspected blunt injury abdomen to be stabilized as inpatient and/or transfer to level 1 if required	Blood - +CBC, Urine Routine + X-Rays of the erect abdomen+ USG abdomen	<ol style="list-style-type: none"> <li>1.Scanned copy of MLC Register showing the details of injury and Police intimation copy. (seal and sign of police station)</li> <li>(2) Photos showing the wound before and after treatment with showing the pt face clearly</li> <li>(3)OP Record/case sheet details showing the treatment given (including OT notes if any), with investigation done report.</li> <li>(4) Hospital Bill with seal and sign</li> <li>(5) At least one identity proof Of the patient to be uploaded during submission of claims</li> <li>(6)Blood investigation-CBC</li> <li>(7)Ultrasound.</li> <li>(8)CT scan report - If required</li> <li>(9) X-Rays of the erect abdomen</li> </ol>
14	15	BLUNT INJURY ABDOMEN WITH ICU STAY	Rs.12000/-	Cleaning, suturing and Dressing of the wounds +Change of soiled cloth with a disposable dress + starting the IV line + IV antibiotics + Suspected blunt injury abdomen with stabilization as inpatient and/or transfer to level 1 if required	Blood -Routine + Urine - Routine + X-Rays of the erect abdomen+ USG abdomen	<ol style="list-style-type: none"> <li>1.Scanned copy of MLC Register showing the details of injury and Police intimation copy. (seal and sign of police station)</li> <li>(5)Blood investigation.</li> <li>(4) Hospital Bill with seal and sign</li> <li>(2) Photos showing the wound before and after treatment with showing the pt face clearly</li> <li>(3)OP Record/case sheet details showing the treatment given (including OT notes if any), with investigation done report.</li> <li>(6)Chest x-ray and erect abdomen.</li> <li>(7)Ultrasound</li> <li>(9) At least one identity proof Of the patient to be uploaded during submission of claims</li> </ol>
15	16	SUPRA PUBIC CYSTOSTOMY IN FRACTURE PELVIS	Rs.8000/	Cleaning, suturing and Dressing of the wounds +Change of soiled cloth with a disposable dress + starting the IV line + IV antibiotics+ Supra Pubic Cystostomy and treated as Inpatient	Blood -Routine - CBC + Urine - Routine + X-Rays of the pelvis + USG abdomen & Pelvis	<ol style="list-style-type: none"> <li>1.Scanned copy of MLC Register showing the details of injury and Police intimation copy. (seal and sign of police station)</li> <li>(2) Photos showing the wound before and after treatment with showing the pt face clearly</li> <li>(3)OP Record/case sheet details showing the treatment given (including OT notes if any), with investigation done report.</li> <li>(4) Hospital Bill with seal and sign.</li> <li>(5)Blood investigation and urine routine report</li> <li>(6)Ultrasound abdomen.</li> <li>(7)X-ray of pelvis showing fracture.</li> <li>(8) At least one identity proof Of the patient to be uploaded during submission of claims</li> </ol>

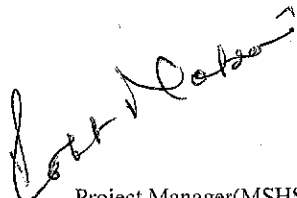

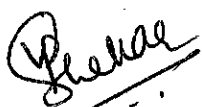

16	18	IMMOBILIZATION FOR SUSPECTED SPINE INJURIES	Rs.2000/-	Non operative Management of spine injury using spinal brace/collar & supportive medication after x-ray	Blood -Routine + X-Rays of the Spine - AP/Lateral	<p>1.Scanned copy of MLC Register showing the details of injury and Police intimation copy. (seal and sign of police station)</p> <p>(2) Photos showing the wound before and after treatment with showing the pt face clearly</p> <p>(3)OP Record/case sheet details showing the treatment given (including OT notes if any), with investigation done report.</p> <p>(4) Hospital Bill with seal and sign</p> <p>(5) X-Rays of the Spine - AP/Lateral</p> <p>(6) At least one identity proof Of the patient to be uploaded during submission of claims</p>
17	19	SPINE INJURIES WITH CT/MRI	Rs.7000/-	Cleaning, suturing and Dressing of the wounds if any + Stabilization of Spine ( procedure to be taken in level 1 hospital which includes CT Scan / MRI)	Blood -Routine + + X-Rays of the Spine - AP/Lateral + CT/MRI	<p>1.Scanned copy of MLC Register showing the details of injury and Police intimation copy. (seal and sign of police station)</p> <p>(2) Photos showing the wound before and after treatment with showing the pt face clearly</p> <p>(3)OP Record/case sheet details showing the treatment given (including OT notes if any), with investigation done report.</p> <p>(4) Hospital Bill with seal and sign</p> <p>(5) X-Rays of the Spine - AP/Lateral</p> <p>(6) CT/MRI</p> <p>(7) At least one identity proof Of the patient to be uploaded during submission of claims</p>
18	20	TRACHEOSTOMY	Rs.5000/-	Tracheostomy	Blood -CBC + X-ray Chest	<p>1.Scanned copy of MLC Register showing the details of injury and Police intimation copy. (seal and sign of police station)</p> <p>(2) Photos showing the wound before and after treatment with showing the pt face clearly</p> <p>(3)OP Record/case sheet details showing the treatment given (including OT notes if any), with investigation done report.</p> <p>(4) Hospital Bill with seal and sign</p> <p>(5) Description of wound .Details of treatment given (6) Photos showing Tracheostomy.</p> <p>(6) x-ray chest At least one identity proof Of the patient to be uploaded during submission of claims</p>

19	21	Head Injury with ICU (Conservative)	Rs. 7000/-	Non operative management of Head Injury which includes ICU stay, anti odema measures like mannitol, anticonvulsant, IV fluids + anti biotic , monitor in ICU.	Blood -CBC, Urine - Routine + CT Scan	1.Scanned copy of MLC Register showing the details of injury and Police intimation copy. (seal and sign of police station) (2) Photos showing the wound before and after treatment with showing the pt face clearly (3)OP Record/case sheet details showing the treatment given (4) Hospital Bill with seal and sign (5)Report of the CT scan (6)Blood investigations - CBC (7)At least one identity proof of the patient to be uploaded during submission of claims
20	22	HEAD INJURY WITH ICU STAY (with VENTILATOR)	Rs.15000/-	Non operative management of head injury which includes ICU stay with Ventilator Support, anti odema measures like mannitol, anticonvulsant, anti biotic , monitor in ICU,	Blood -CBC + Urine - Routine + CT Scan + Other Relevant Investigations - ABG	1.Scanned copy of MLC Register showing the details of injury or Police intimation copy. (seal and sign of police station) (2) Photos showing the pt on ventilator with face clearly seen (3)OP/IP Record/case sheet details showing the treatment given (4) Hospital Bill with seal and sign (5)Report of the CT scan (6)At least one identity proof of the patient to be uploaded during submission of claims
21	23	HEAD INJURY WITH MINIMAL SURGICAL INTERVENTION	Rs.25000/-	Operative management of head injury which includes ICU stay with Ventilator Support, anti edema measures like mannitol, anticonvulsant, anti biotic , monitor in ICU.	Blood -CBC + Urine - Routine + CT Scan+ ABG + , X-Ray of other affected area.	1.Scanned copy of MLC Register showing the details of injury and Police intimation copy. (seal and sign of police station) (2) Photos showing the wound before and after treatment with showing the pt face clearly (3) IP Record/case sheet details showing the treatment given ( including OT notes if any),. (4) Hospital Bill with seal and sign (5)Report of the CT scan (6)Other relevant investigations (7) Surgical wound + Scar photo of Pt (8) Blood inv - CBC (9) X-ray of other affected area if done (10) At least one identity proof of the patient to be uploaded during submission of claims
22	24	BLOOD TRANSFUSION	Rs.1500/	Blood Transfusion per Unit(Bottle) (Max Admissible - 3 Pint	Grouping + Cross Matching + CBC	Associated with relevant procedural package to be indicated and uploaded with that package and CBC +grouping with cross matching report

23	25	RTA INJURIES ASSOCIATED WITH BURNS (CONSERVATIVE MANAGEMENT)	Rs.4000/-	Conservative Management of Burns, Dressing, antibiotics and IV fluids	Blood – CBC, electrolytes + X-ray of injured part	Associated with relevant procedural package to be indicated and uploaded with that package with justification. •Pt photo showing injury and burns •X-Ray •Blood inv - CBC, electrolytes •At least one identity proof of the patient to be uploaded during submission of claims
24	26	Simple/Compound fracture with fixator along with implants for bones of Foot & Hand	Rs.12000/-	Cleaning, suturing and Dressing of the wounds +Change of soiled cloth with a disposable dress + starting the IV line + IV antibiotics + IV fluids + internal/external fixation of the fracture (in compound fractures)/Flap Cover and Treated as In Patient.	Blood -CBC , pre OP x-ray	1.Scanned copy of MLC Register showing the details of injury and Police intimation copy. (seal and sign of police station) (2) Photos showing the wound before and after treatment with showing the pt face clearly (3)OP Record/case sheet details showing the treatment given including OT notes , (4) Surgical wound + Scar photo of Pt (5) Hospital Bill with seal and sign (6) At least one identity proof of the patient to be uploaded during submission of claims (7)X-Ray showing fracture before and after applying internal/external fixators (8) Blood investigation – CBC
25	27	ICU stay other than head injury	Rs.4000/-	Non operative management of injury with ICU stay , antibiotic, IV fluids , monitoring in ICU.	x-ray of affected part, Blood Inv - CBC	1.Scanned copy of MLC Register showing the details of injury and Police intimation copy. (seal and sign of police station) (2) Photos showing the wound before and after treatment with showing the pt face clearly (3)OP Record/case sheet details showing the treatment given (including OT notes if any), with investigation done report. (4) Hospital Bill with seal and sign (5) At least one identity proof of the patient to be uploaded during submission of claims (6) Blood inv – CBC

Note: Self certification that only one MLC register is maintained with UID number and pages numbered for audit inspection
